Part 2 Questions 7–13

The people below all talk about their favourite place at the weekend. Read the texts and then answer the questions. For each question, choose the correct person, A, B or C.

A — Omar	My favourite place is the sports centre near my house. I go there every Saturday morning with my cousin and we play table tennis for two hours. It isn't expensive for students, and the man at the desk knows us now, so he always keeps a table free for us. In the summer I go there almost every day and I swim as well.
B — Lily	I love the city library. It's quiet, and it has hundreds of books — I found one about horses last week and finished it in a day. My mum works in a shop nearby, so she leaves me there in the morning and I stay all afternoon. I can't take books home yet, because I am still waiting for my library card, but you can read anything you like inside.
C — Adam	For me, the best place is my grandpa's allotment — a small garden behind the flats where we grow potatoes, tomatoes and strawberries. My job is to carry the water from the tap, and my arms are much stronger than last year. Grandpa says our strawberries taste better because we grow them ourselves, and I think he's right.

Who...

7. plays a sport with a relative? _____

8. is taken to their favourite place by a family member? _____

9. cannot borrow things yet? _____

10. grows fruit and vegetables? _____

11. does a job that has made them stronger? _____

12. finished a book in one day? _____

13. gets special help from someone who works there? _____

Part 3 Questions 14–18

Read the article about sleep and choose the correct answer A, B or C.

Why do we need sleep?

Everybody says that we should sleep for eight hours, but do you know why? While you are asleep, your body and your brain are very busy.

First, your body repairs itself. If you fall over and cut your leg, the new skin grows best at night, so children who sleep well get better faster.

Second, sleep helps your brain. Everything you learned at school today is stored away while you are asleep. That is why one good night's sleep before a test is more useful than studying until two o'clock in the morning.

Some scientists think that sleep keeps us healthy, too. In one study, people who slept only five hours every night caught more colds than people who slept for eight hours.

But many young people in Britain sleep for less than seven hours. Phones and computers are one reason: the light from a screen tells your brain that it is still daytime. Sport and homework are another.

So what can you do? Stop using your phone an hour before bed, go to bed at the same time every day — and don't do your homework under the blanket! Your body will thank you for it.

14. What is the article mainly about?

- A why children become ill
- B why sleep is good for us
- C how to study for a test

15. Why do children who sleep well get better faster?

- A Their bodies repair themselves at night.
- B They eat more than other children.
- C They go to the doctor more often.

16. What does the article say about learning?

- A You should not study in the evening.
- B Sleep helps you to remember things.
- C Tests are always easier in the morning.

17. In the study, people who slept for five hours a night...

- A were tired during the day.
- B caught more colds.
- C did less sport.

18. What is the writer's advice?

- A Do your homework in bed.
- B Sleep with a light on.
- C Put your phone away before you go to bed.
